

116TH STREET WIDENING PROJECT

Drive Fishers is the City of Fishers' initiative to increase travel efficiency, improve connectivity and maintain the sanitary sewer and water infrastructure via innovative projects and a proactive approach to construction and maintenance.

Since 2012, Drive Fishers has completed traffic calming projects, sanitary and storm sewer projects, 29 resurfaced lane miles, 6.5 trails and sidewalks, and received more than \$20 million in grants, improving the infrastructure in Fishers while leveraging federal dollars to save money for the Fishers' taxpayers.

Infrastructure improvement projects contribute to long-term vitality of our community and increased economic development opportunities.

PROJECT OVERVIEW

PROJECT STATUS: IN DESIGN

BID DATE: SPRING/SUMMER 2016

ANTICIPATED CONSTRUCTION PERIOD: APPROX. 6-9 MONTHS

DESIGN CONSULTANT: A&F ENGINEERING

ESTIMATED PROJECT COSTS: \$6 MILLION

PROJECT BENEFITS:

- EASE TRAFFIC CONGESTION
- IMPROVE PEDESTRIAN CONNECTIVITY

PROJECT SCOPE

The 116th Street widening project was identified in an effort to ease traffic congestion and improve pedestrian connectivity.

The project includes the widening of 116th Street to add a thru lane, providing additional capacity throughout the corridor. The existing traffic signal at 116th Street and USA Parkway will be removed, and the intersection will become a right-in and right-out intersection.

Oak Drive will be widened to have a similar boulevard feel as USA Parkway and will be extended to the south to intersect USA Parkway. A new signal will be installed at the intersection of 116th Street and Exit Five Parkway/Oak Drive with additional turn lanes at appropriate legs of the intersection.

In addition, a sidewalk will be extended along the south side of 116th Street.

The project is scheduled for completion during the summer/fall of 2016.

PROJECT MAP

Option 1 includes connecting the neighborhood streets to Oak Drive.
